

Michael Yilak

Addis Ababa, Ethiopia, 1000 | +251 97 910 9166 | miku82048@gmail.com

PERSONAL INFORMATION

- Date of birth:** 2006-01-18
- Place of Birth:** Addis Ababa, Ethiopia
- Nationality:** Ethiopian

SUMMARY

Highly motivated student with strong communication, time management, and interpersonal skills. Ability to analyze data, develop strategies, and provide solutions to complex problems. Seeking to apply computer knowledge in real-world settings, contributing to business areas with a blend of academic skills and practical experiences. Known for adaptability, positive influence, and addressing challenges to simplify and improve experiences.

EDUCATION

One Planet International School - Addis Ababa, Ethiopia | High School Diploma

Graduation: June 2024

GPA: 4.0/4.0

SKILLS

- Digital innovation
- Programming fundamentals
- Problem-solving
- Time management
- Sports expertise
- Active listening
- Negotiation
- Multitasking
- Team collaboration

CERTIFICATES & ACHIEVEMENTS

- Certificate of Appreciation, Ethiopian Space Science Society (ESSS)
- Certificate of Appreciation, One Planet International School
- Certificate of Excellence, Addis Ababa City Administration Education Bureau
- Certificate of Recognition, The Virtue Department
- Certificate of Completion, AI & ML Summer Camp, Ethiopian Artificial Intelligence Institute (EAI)
- Certificate of Participation, Annual Science Contest

TECHNICAL PROJECTS & ACCOMPLISHMENTS

- Smart Irrigation System:** Key contributor to the development of an automated irrigation system using Arduino, focusing on real-time plant moisture and humidity monitoring. Implemented sensor-based watering control, enhancing resource efficiency and optimizing plant health. Demonstrated technical expertise and proactive problem-solving in creating a sustainable solution for precision agriculture.
- Digital Library System for Melu Autism Foundation (Client Project):** Led the design and implementation of a web-based library system utilizing PHP, HTML, and JavaScript for the Melu Autism Foundation. Upgraded book inventory management, optimizing accessibility and efficiency for both in-house and remote users. Initiated online access to the foundation's library, fostering inclusivity and facilitating global knowledge sharing. Demonstrated proficiency in web development and a commitment to creating accessible digital solutions for nonprofit organizations.
- IOT based garbage monitoring and control system:** Designed an efficient waste management solution, providing real-time data on bin capacities. Optimized waste collection routes, reducing operational costs by 15%. Enhanced sustainability efforts by minimizing unnecessary pickups and lowering carbon footprint.
- Smart Home Security Alarm (Collaborative work):** Played a key role in the development of a smart security alarm system, leveraging Arduino technology for motion detection and homeowner alerts. Showcased exceptional collaboration and problem-solving skills within a team environment. Contributed to creating a reliable and innovative solution for enhanced home security.
